To Whom It May Concern,

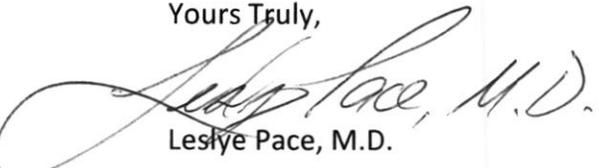

10/21/20

This is to verify the medical necessity for Stefon Adams, former NFL Player, to begin hydrating with the Crystal Blue Water Structuring device. This unique technology decreases the surface tension of the water thus accelerating hydration which should significantly improve Stefon's degenerative disorders.

I highly recommend this unique and effective technology for any former or current Athletes since it will help improve a variety of health disorders associated with sports. I was a professional ballerina and athlete for most of my life and I can personally attest to the attributes and benefits of the Crystal Blue Water Structuring device. It has proven to be therapeutic for our entire Family.

Please feel free to contact me anytime, with any questions you may have.

Yours Truly,

  
Leslye Pace, M.D.
